Your destination

The warm sea, the beautiful beaches and lots of sunshine await you on your holiday in Italy. Few towns in Sardinia, with the grace of Alghero, can be found on the seaside. A quiet and wonderful spot popular with English holidaymakers since the 1960s, Alghero is lively during the summer months but is never invaded by the jetset that can be found in other parts of the island.

Please note :

- The fragility of the Italian energy system is a reality in Sardinia. The electricity standards are only 300 megawatts. As a result, it is not possible to use two appliances at the same time for example. As Italy is not equipped with nuclear power plants, the risk of power cuts or blackouts caused by the hot weather can cause inconvenience. There is no optical fiber in Sardinia, the Internet connection is slow and is often disrupted by the weather. We would like to inform you of these possible inconveniences that are unfortunately beyond our control.
- The public transport on the island is not very reliable, we therefore highly recommend having a car.
